

Pacific Dermatologic Association
62ND ANNUAL MEETING
August 11-15, 2010 • Pasadena, CA

Clinicopathologic Conference • PDA Annual Meeting

CALL FOR CASES

IT'S NEVER TOO EARLY - GET THOSE CAMERAS CLICKING!

The Pacific Dermatologic Association (PDA) is looking for high-quality cases to be presented at the Walter R. Nickel/Louis H. Winer Dermatopathology CPC, which will be held during the PDA's 62nd Annual Meeting August 11-15, 2010 in Pasadena, California. One of the most popular sessions offered at each PDA meeting, the CPC will feature the presentation and discussion of the clinical and histopathological correlations of interesting and cutting-edge dermatology cases. **Guest dermatopathologist Scott Binder, MD, will be presenting and discussing your case this year in the context of his practice experience. Thereafter, you are invited to make comments or add followup.**

Cases will be chosen primarily on the basis of quality, but if two similar cases are submitted, preference will be given to the case that is received first. You, as submitter of a case that is chosen for the CPC, will be recognized by name and your case (including pictures) will be published in the CPC Syllabus. Consider submitting an older case from your file, illuminated by followup.

To encourage an increased number of submissions, the PDA has made a few important changes. In the past, a number of great cases were not submitted due to a small specimen or insufficient material to cut the number of slides required. We now ask for two (2) H & E stained slides and four (4) unstained slides (for possible special stains). The slides can be made from serial sections to allow for conservation of the material in the tissue block. If you prefer, you can send the tissue block and we can cut the sections. Please note that we still require clinical photos for all submitted cases. We will accept electronic images (preferred), color prints or 35-mm slides. Cases with followup are most informative.

Contributors to the 2010 CPC will receive a CD containing all presented cases, including the PowerPoint slides that will be shown at the meeting. *Attendance at the meeting is not required to submit a case for discussion.*

Nickel/Winer "Best CPC Case" Award. The PDA will be presenting a plaque at the conclusion of the CPC Conference to the best submitted case as judged by the CPC Chairperson and the guest dermatopathologist.

To submit a case, please enclose the following materials:

1. One-page clinical history and findings, etc. **(Complete page 2 of this form.)**
2. One or more high-quality clinical photographs — 2x2, 35-mm slides; color prints; or electronic images (preferred). Note: A clinical photo will be published in the CPC Syllabus if your case is chosen.
3. Either one of the following:
 - 2 H & E slides, 4 unstained standard glass slides
 - One paraffin-embedded tissue block containing at least enough tissue to make 6 slides

You may also include your own introductory PowerPoint frame showing contributor name(s), case title and institutional logo or scenic backdrop, but this is not a requirement for submission.

Please send your submission(s) to Dr. Bruce Ragsdale at the address on page 2. Questions can be directed to Dr. Ragsdale at (805) 541-6033 x204 or rags@ccpathology.com. **Keep this form handy. Undoubtedly in the next few weeks you will see one or more exciting cases that will contribute to a valuable learning experience for all at this year's CPC. Thank you!**

Submission deadline: June 1, 2010
